

CONFIGURATIONS:

- B Unit Production
- Production Office
- Command Post
- Emergency Response Center

TRAILBLAZER

CHECKMATE

Trailblazer is designed to be a flexible production vehicle, able to realize a variety of event environments, for industries such as Broadcast & Film, Event Production & Management, Law Enforcement & Emergency Response.

In its most basic form, Trailblazer provides a comfortable and functional temporary work space or command post. Trailblazer is outfitted with movable desk space, a large open work area, dry erase walls, a private office and a conference room.

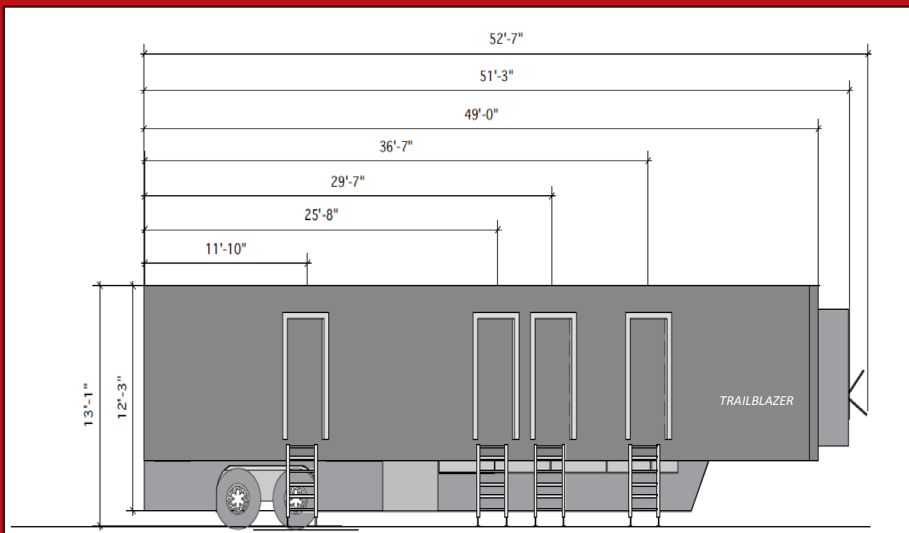

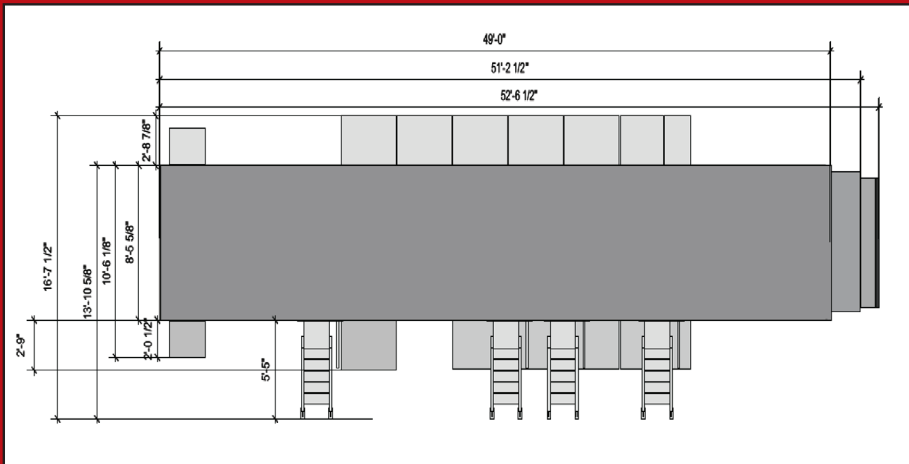

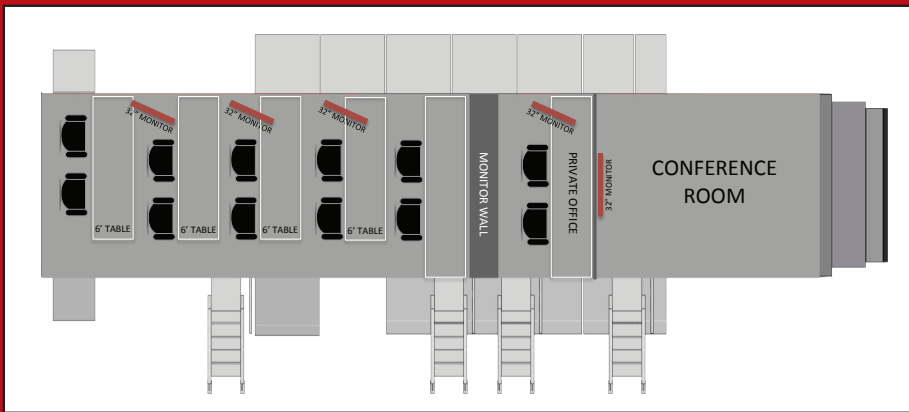

Video, audio or IT equipment can be configured onto rack units or mounted to the L-Track system with existing power and cable installations. The private office is also designed to function as a sound booth, and the conference room and open space areas transform to deliver a complete live video production experience.

- Heating and air-conditioning
